Welcome

Lets Start Here!

COMPANY OVERVIEW AND STRATEGIC IDENTITY

Geowete Enterprise Limited is a diversified Zambian enterprise established to operate as both an active project developer and a strategic investment platform. Headquartered in Lusaka, the company was founded with the express purpose of addressing Zambia's structural development needs through commercially viable, well-governed, and impact-oriented ventures. Its scope of operations spans renewable energy, clean water infrastructure, ICT consultancy and facilities management, construction and accommodation development, mining activities and mining commodities, and investment management and capital advisory services.

From inception, Geowete Enterprise Limited has been structured to bridge the gap between opportunity and execution. The company not only identifies and originates projects but also leads them through structuring, funding, governance, and operational oversight. This integrated model enables Geowete to serve governments, private enterprises, faith-based institutions, and investors who require a capable local partner with strong technical understanding, financial discipline, and governance credibility. Central to the company's identity is a belief that enterprise can be a vehicle for stewardship, national development, and social transformation while remaining commercially competitive and investor-ready.

VISION AND LONG-TERM ASPIRATION

Geowete Enterprise Limited envisions becoming a leading African enterprise and investment facilitation platform recognized for excellence in infrastructure development, responsible resource commercialization, and investment governance. The company seeks to play a defining role in shaping Zambia's renewable energy, mining, construction, and institutional development landscape while expanding its footprint across Southern Africa. Its long-term aspiration is to build enduring ventures that deliver sustainable economic returns, strengthen institutional capacity, and generate measurable social and environmental impact.

MISSION AND OPERATING PURPOSE

The mission of Geowete Enterprise Limited is to originate, structure, finance, and manage high-impact ventures that combine technical excellence, sound financial design, and robust governance frameworks. Every engagement is approached with the objective of creating long-term value for investors, partners, and communities. Through disciplined execution, strategic partnerships, and responsible stewardship, the company aims to ensure that each project contributes to economic growth, job creation, infrastructure development, and social upliftment.

Enterprise Limited

VALUES, PROFESSIONAL STANDARDS, AND ETHICAL FRAMEWORK

Geowete Enterprise Limited operates under a strong ethical framework anchored in integrity, professionalism, and accountability. The company exercises due skill, care, and professionalism consistent with recognized industry standards across all its activities, including investment advisory, project development, mining engagement, and infrastructure delivery. Transparency in financial management, regulatory compliance, and stakeholder communication is treated as non-negotiable. Innovation is pursued not as an end in itself but as a means to deliver efficient, scalable, and future-ready solutions. Sustainability informs decision-making at every level, ensuring environmental responsibility, financial resilience, and social inclusion. Faith-based stewardship underpins leadership philosophy, reinforcing a commitment to service, compassion, and long-term value creation.

LEADERSHIP, STEWARDSHIP, AND GOVERNANCE

Geowete Enterprise Limited is led by Founder and Chief Executive Officer George Chimbwete, whose leadership combines financial expertise, strategic insight, and faith-based stewardship. With experience in financial modeling, competitor analysis, investment structuring, and project management, he has positioned the company as a credible platform for investor-ready ventures. His leadership emphasizes professionalism, partnership, and purpose, ensuring that commercial performance and ethical responsibility remain aligned.

RENEWABLE ENERGYDEVELOPMENT AND ENERGY INVESTMENT SOLUTIONS

Geowete Enterprise Limited plays an active role in international trade and large-scale supply, with the capacity to supply strategic mineral commodities including copper cathode, gold, copper concentrate, and cobalt. The company operates on supply volumes ranging from 50,000 metric tonnes (MT) on a trial basis to up to 100,000 MT on full-scale supply, subject to contractual and logistical requirements.

In addition, Geowete Enterprise Limited is actively involved in the development and deployment of renewable energy solutions, addressing Zambia's energy reliability challenges while supporting the country's transition toward sustainable power generation. The company delivers solar system installations ranging from 20MW to 960MW, designed to meet the needs of institutional, commercial, and community clients.

The company designs, structures, and implements solar backup systems, hybrid energy solutions, and energy efficiency initiatives, with each project commencing with detailed technical and financial assessments to ensure optimal system sizing, operational reliability, and cost efficiency.

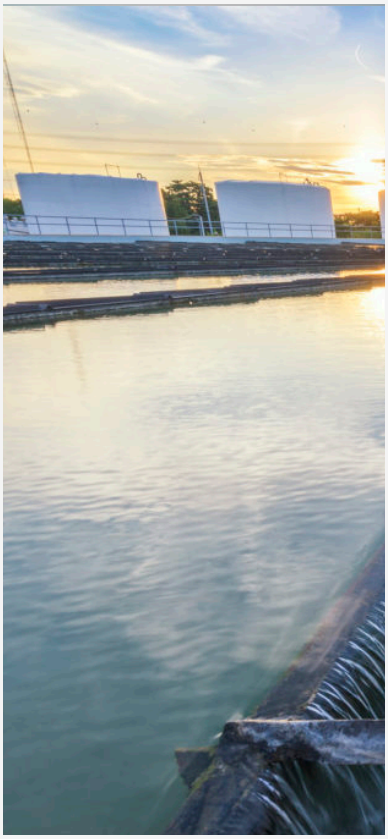

Beyond implementation, Geowete integrates financial modeling, investment structuring, and lifecycle planning to ensure that energy projects are bankable and attractive to investors. This includes structuring sustainable revenue models, assessing return on investment (ROI), and aligning projects with development finance institutions and private capital requirements. Through this integrated approach, Geowete delivers solutions that reduce operational disruptions, lower long-term energy costs, and generate stable, predictable returns.

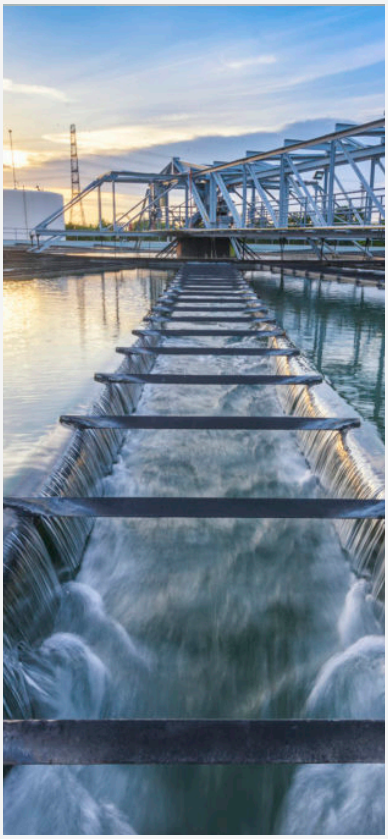

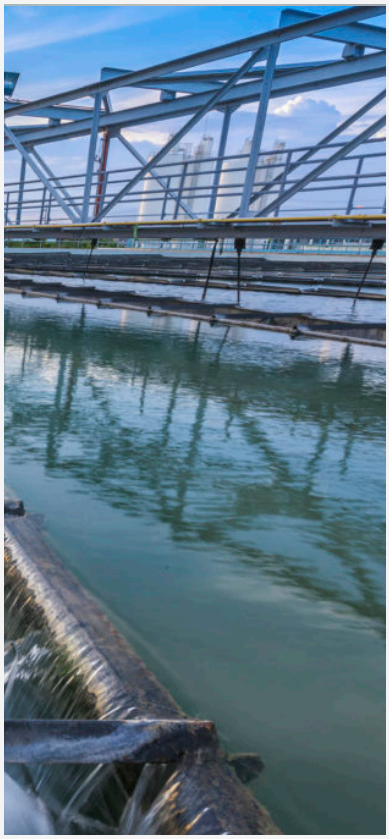

WATER SECURITY PROJECTS

Clean water development is a central pillar of Geowete Enterprise Limited's social and economic impact strategy. The company develops borehole drilling projects, water purification systems, storage infrastructure, and distribution networks designed to deliver safe, reliable water to communities, institutions, and agricultural operations. Projects are informed by hydrogeological assessments, engineering design, and community engagement to ensure technical viability and long-term sustainability.

Geowete structures water projects with governance and maintenance frameworks that support durability and accountability. Where appropriate, the company integrates funding models that enable cost recovery and reinvestment, making water infrastructure attractive to development partners and impact investors. These initiatives contribute to improved public health, education outcomes, food security, and local economic development.

ICT CONSULTANCY, DIGITAL INFRASTRUCTURE, AND FACILITIES MANAGEMENT

Geowete Enterprise Limited provides ICT consultancy services that support digital transformation and operational efficiency for institutions and enterprises. The company advises on systems integration, cloud migration, digital infrastructure planning, and technology optimization. These services are designed to enhance data security, improve service delivery, and support scalability.

Complementing ICT advisory, Geowete delivers facilities management solutions that ensure effective asset utilization, regulatory compliance, and cost control. By integrating digital oversight with facilities management, the company enables clients to focus on their strategic objectives while maintaining efficient and well-governed operational environments.

CONSTRUCTION, INFRASTRUCTURE, AND ACCOMMODATION DEVELOPMENT

Geowete Enterprise Limited undertakes construction and infrastructure projects that are designed to deliver long-term functional and social value. The company is involved in institutional buildings, residential developments, student accommodation, and community infrastructure projects. Each project is executed in accordance with engineering best practices, safety standards, and quality assurance protocols.

Accommodation development, particularly in the education sector, is a growing focus area. Geowete structures student housing and residential facilities to provide safe, supportive environments while offering investors stable, long-term income streams. These projects address critical infrastructure gaps while aligning with national development priorities.

MINING ACTIVITIES AND MINING COMMODITIES DEVELOPMENT

Geowete Enterprise Limited is actively engaged in mining-related activities and the development of mining commodity opportunities within Zambia. The company approaches mining as both a technical and governance-intensive sector, requiring disciplined structuring, regulatory compliance, and responsible resource management. Geowete participates in project origination, feasibility support, partnership development, and investment structuring for mining ventures.

The company focuses on aligning mining projects with environmental standards, community engagement requirements, and investor expectations. By integrating financial modeling, due diligence coordination, and governance oversight, Geowete supports mining ventures that are positioned for sustainable extraction, responsible commercialization, and long-term value creation. Mining commodities are treated as strategic assets, with emphasis on transparency, compliance, and structured market access.

CORPORATE COMPLIANCE, REGULATORY MANAGEMENT, AND INVESTOR READINESS

Geowete Enterprise Limited operates as an investment management and capital advisory platform, sourcing investment funding opportunities and providing structured access to its investor network. The company leads investment structuring processes, supporting financial modeling, due diligence, pitching, negotiations, and transaction execution. These services are designed to align project sponsors, investors, and institutions around clear value propositions and risk-managed structures.

Geowete assists clients and partners in strategy formulation, corporate governance framework development, and institutional capacity building required for business growth. The company supports the formation and strengthening of management teams across investee companies where gaps exist, ensuring leadership capability aligns with investor expectations. Post-investment, Geowete assists with monitoring, reporting, and performance oversight to protect capital and drive accountability.

CORPORATE COMPLIANCE, REGULATORY MANAGEMENT, AND INVESTOR READINESS

Geowete Enterprise Limited leads corporate compliance and regulatory management functions across its ventures and advisory mandates. The company ensures adherence to statutory obligations, reporting requirements, and investor disclosure standards. It provides administrative coordination, documentation support, and facilitation of legal processes required for funding engagements and investment transactions.

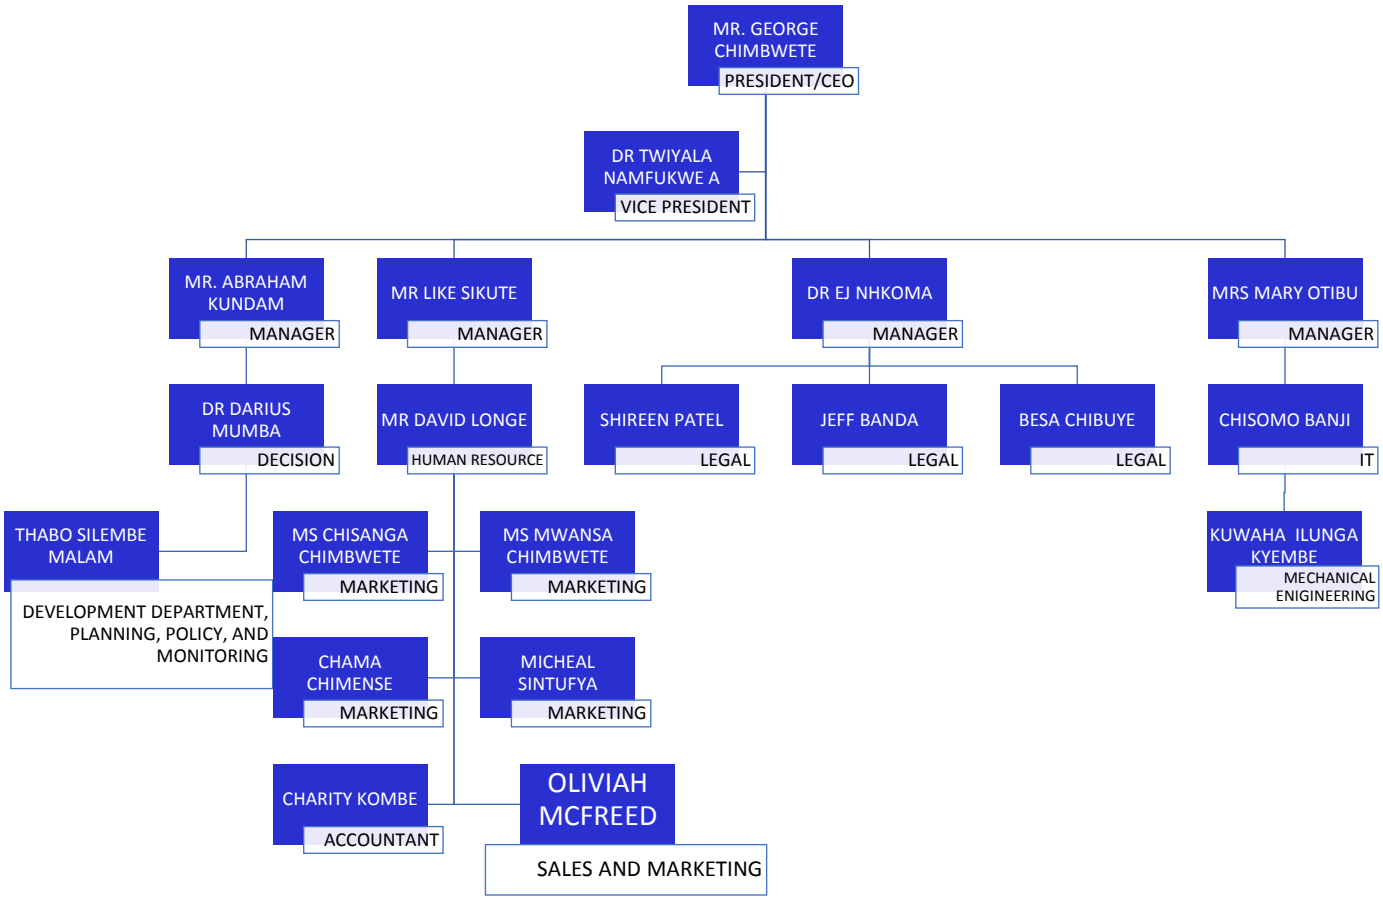

A key function of Geowete is facilitating internal alignment of documentation for investment readiness. This includes harmonizing corporate records, financial statements, governance policies, and operational documentation to meet the expectations of investors, lenders, and regulators. The company provides an enabling business environment characterized by administrative efficiency, financial transparency, and disciplined governance across all mutually engaged ventures.
